Brick: Job Scheduler (Specialized application for scheduling and controlling batch jobs.)
Domain: Commodity Applications
Effective Date: September 9, 2016

Current	+ Two Years
1. Baseline Technology (Approved & supported for current usage.) • CA Workload Automation* • Oracle DBMS Scheduler • Unix Cron** • Windows SQL Server Agent • Windows Task Scheduler	**2. Mainstream Targets (Primary candidates for future deployment, subject to further review and acceptance by the CIO.)** • Descendants of Baseline Technology
3. Retirement Targets (Exit ASAP.) • Predecessors of Baseline products that lag by more than one full version from those that are fully supported by the product vendor.	**4. Containment Targets (Current usage approved. No further proliferation. Long-term exit plan. For waiver, follow Waiver Policy.)** • Predecessors of Baseline products that lag by no more than one full version from those that are fully supported by the product vendor.

5. Notes:

- By default, Baseline Technology product versions are those that are fully supported by the product vendor. This includes "Extended Support", not just "Service Pack" or "Mainstream Support".
- *RAC or Fusion middleware environments use CA Workload Automation as the standard scheduler.
- **Jobs do not run under Admin Accounts or reside on database or middleware shared servers.
